

# SERGIO MATHIAS CURBELO LÓPEZ

## Frontend / Full Stack Developer

(+598) 097 266 076 | [sergiomcubelo5@gmail.com](mailto:sergiomcubelo5@gmail.com) | Uruguay (open to remote)

[linkedin.com/in/smcubelo](https://linkedin.com/in/smcubelo) | [github.com/na7hk3r](https://github.com/na7hk3r) | [smcubelo.vercel.app](https://smcubelo.vercel.app)

## PROFILE

---

Frontend-focused developer with over two years of hands-on experience, including a year and a half building production features in React for an international remote team. Comfortable across the full stack (Java/Spring Boot, Node.js, React) with a strong eye for UI/UX, performance, and responsive design. Trained in Full Stack Development and Scrum; adaptable, communicative, and used to working async across time zones.

## PROFESSIONAL EXPERIENCE

---

### Frontend Developer

Feb 2025 – Apr 2026

**My360 Tours** · Remote · Part-time

- Built and optimized the UI/UX of the virtual tour player and editor in React, the core product used by clients worldwide to create interactive virtual tours.
- Identified and resolved usability and performance issues in key player/editor components through iterative refactors and responsive design improvements.
- Partnered directly with the product team on market analysis and feature planning, translating findings into shipped functionality used by end clients.
- Maintained a consistent, fluid experience across devices and platforms as part of a fully remote, international team spanning multiple time zones.

### Frontend Team Lead (Project)

2024

**Independent team project · 8 members**

- Led frontend development for an artwork-rental booking platform (Java, Spring Boot, MySQL, JWT, React, Tailwind; deployed on Vercel/Railway).
- Owned Kanban task organization, built key React components, and reviewed teammates' commits to keep delivery aligned with user stories.
- Delivered a fully functional product on a tight timeline while maintaining code quality across the team.

### PC & Network Technician, Customer Service

2016 – 2023

- Handled equipment, network, and infrastructure maintenance alongside customer-facing service and administrative tasks (invoicing, coordination with government offices).
- Reduced service downtime by 25% by improving maintenance processes — first hands-on exposure to systems troubleshooting that later shaped a shift toward software development.

### PC Technician & Graphic Designer

2014 – 2016

- Repaired computers and networks and advised clients on IT solutions; designed marketing materials for brochures and social media.
- Increased customer retention by 20% through attentive technical support.

## KEY SKILLS
